

PWF Road

DPS-48(25); CN 13598

Project Location

Identified as **PWF Road**, this proposed project would construct improvements to PWF Road, in Jefferson County, NE. The project would begin at 575th Avenue and extend approximately seven miles east to 582nd Avenue. Construction may begin and/or end along PWF Road approximately 500 feet to the west of 575th Avenue and 500 feet to the east of 582nd Avenue to accommodate tying into the existing roadway.

Improvements

The proposed improvements on this project would consist of pavement removal, grading, new concrete pavement, culvert removal and replacement, bridge repair, box culvert construction, erosion control, and seeding. The bridge over Indian Creek (C004813225) would be repaired; improvements would include new guardrail and approaches. Utility relocations are anticipated.

Purpose & Need

The purpose of this project is to preserve the transportation asset, improve the reliability of the transportation system, and perpetuate the mobility of the traveling public. The need for this project is based on the current condition of the roadway and bridge.

Project Impacts

The proposed project would require the acquisition of additional property rights, which could include new right-of-way (ROW), control of access (CA), permanent easements (PE), and/or temporary easements (TE). If your property is impacted by this project, you will be contacted by a representative once the design footprint has been established. Access to adjacent properties would be maintained during construction but may be limited at times due to phasing requirements.

Impacts to wetlands are anticipated and would be mitigated, as required. No impacts are anticipated to any parks, trails, or historic properties.

The improvements would be constructed under full closure. The designated detour route for PWF Road would use 573rd Avenue, U.S. Highway 136 (US-136) and SW 61st Road (Odell Road).

Anticipated Schedule

Construction could begin as early as summer 2027 with completion anticipated by fall 2028.
